

# MercachemSyncom

UNLOCKING NEW POTENTIAL

MercachemSyncom is one of the leading chemistry CROs in Europe. With over 450 highly trained and dedicated chemists, MercachemSyncom provides a range of services to support small-molecule drug discovery and development projects for biopharmaceutical companies in the USA, Europe, and Japan. Our key areas of expertise are synthetic chemistry, medicinal chemistry, parallel chemistry, and chemical process R&D for clinical trials.

As part of our increasing demand for our services at our location in Nijmegen NL, we are currently looking for a skilled and enthusiastic

## Senior Analytical Chemist

(M/F) Full time

Working in a team of analytical chemists, the Senior Analytical Chemist will be primarily responsible for the development, qualification or validation, and transfer of analytical methods for small-molecule APIs. This includes, but is not limited to, the development of stability indicating analytical methods, the development of stability study protocols, and the preparation of related documentation. Responsibilities include support of process R&D and GMP-production projects across our sites in Nijmegen, Groningen, Weert, and Prague. The main techniques used are HPLC/UPLC, LC-MS, GC, GC-MS, and NMR spectroscopy. The Senior Analytical Chemist will also support operations in the analytical labs, including the maintenance and troubleshooting of selected analytical equipment. Additionally, the Senior Analytical Chemist will share his/her knowledge with colleagues within the department to further develop our analytical services package.

### Qualifications

- ⬢ BSc or MSc degree in analytical chemistry.
- ⬢ Minimum of 5 years' practical experience in the pharmaceutical or related industry.
- ⬢ Experience in GMP and GLP protocols.
- ⬢ Enthusiastic, proactive, and results-oriented team player.
- ⬢ Excellent communication skills.
- ⬢ High level of written and spoken English required.

This vacancy is open for EU residents only.

### Job offer

An exciting position in a dynamic organization with an attractive remuneration package and opportunities for learning and development.

### Application
